Samsung Galaxy Tab announced

Samsung has finally lifted the curtain on their Samsung Galaxy Tab. This small, 7-inch tablet runs Android 2.2 and will be a very strong competitor to the iPad. The small handheld tablet comes loaded with a ton of options, including a front and rear facing camera. The Android powered tablet features...

Amazon offering TV episodes for 99 cents

In an attempt to combat the 99-cent rentals that Apple now provides with their new Apple TV, Amazon.com's video-on-demand is offering TV episodes from Fox and ABC for only 99 cents. This comes at a better deal than Apple's rental, as for these episodes instead of renting, you are purchasing....

Xbox Kinect's voice recognition to be US/UK/Japan-only at launch

Many of those dreaming of a voice-controlled entertainment system in their living room will have to wait a little longer, as Microsoft confirms that only North America (with no French), the UK and Japan will have Xbox Kinect's touted voice recognition enabled at launch. According to Engadget, Germany, Italy, France,...
