### **Is your home business struggling? (Knoxville)**

You don't have to pay 100's a month with SEO advertising when you could use the Social Media.

There is a way to go about it. Take it from a person who built a listenership from 0 to over 3,000 a month just by marketing on Facebook and Twitter. My suggestion is it is not too late to take advantage of the 400 million people who log on to these outlets daily.

You can add people who are in your niche group. That way everyone who you are marketing to has some connection or interest in your business.

Imagine after 2 years you have a couple thousand people in YOUR network.

Success in business is all connected to how you feel about your business. What if your business is being seen daily even when you are sleeping. The confidence that comes with that realization is second to none. You will see a difference in your business.

What I offer you is 3 times as valuable of what I charge. I can help you build your brand online. If you are interested I look forward to hearing from you.

### **build business & orphanage opp. (knoxville,tn)**

This is an opportunity for someone in the Knoxville area to have their very own business and help support an orphanage at the same time, The cost to get started is very low. the business itself is retail, does great in a recession. I am looking for someone of outstanding integrity and standards. We have an orphanage in the tiny impoverished country of El Salvador currently with 21 children and growing. I know that you are wondering what kind of business I am talking about, that will be revealed after we have established contact and have talked a few times. I have helped start 3 stores in the Asheville and Hendersonville n.c. area and want to give someone in the Knoxville area an opportunity to to make a good living and at the same time get involved in mission work by helping support our orphanage. There are no franchise fees only a small percentage to the orphanage.

**Like the concept of MLM, but not having the success you'd hoped for?**

Frequently, a lack of success isn't your fault. Success in Network Marketing (Multilevel Marketing, or Direct Sales Marketing) depends on more than simply, "find people and bring them to the meeting" or "find people and I'll put them in for you." There are a many factors that play into your success beyond proper training.

Call or e-mail me and lets talk. I'll review what you are currently doing, how you have been going about it, and provide some help to get you going in the right direction. I will not try to pitch you on my preferred MLM unless you would like me to.

Even if you are successful in Network Marketing, get a hold of me and lets talk shop.

We have a great automotive tech at our shop, he is Raymond formerly from Valley Service Center ( Ammoco, Exon) on Emory Rd. He was there about 31 years. Everything we do comes with a year workmanship warranty so you can't loose. Our shop stays pretty busy but we love to meet new customers. We have made alot of friends in the Halls and surrounding areas. Word of mouth is our favorite advertising but you have to put out a great product and stand behind it. My dad has been in the same building running his buisness ( Halls Upholstery) for 32 years. It is a small shop but he has lasted through out the years. We depend on our customers & treat our customers as family. We do buisness the old way with a personal relationship. Your not just a number at Protech. Come see for yourself all estimates are free.
