### **WANTED: PATRICK HENRY OR EDISON STUDENT FOR AN HOUR'S WORK EACH WEEK (Near 41st & Pittsburg)**

We live a few blocks from Patrick Henry school, and would like to find a reliable PH or Edison student to come to our house twice a week and brush our two dogs and two cats. We can afford to pay \$10 a week. It takes about 20 minutes to brush them all, so less than an hour, total, each week. We have a Furminator brush, which makes it very easy. Once on the weekend and once mid-week is fine. Flexible on the days and times, but we want someone who will always show up when expected.

I have asthma, and the Doctor says the dog/cat hair and dander is affecting my breathing. Can't brush them myself anymore! The dogs need to be done in our fenced yard, or out in the garage if the weather is bad. The cats stay inside. One cat and one dog are very shy, but all four animals are gentle and friendly. Animal lover preferred!

If you live in the neighborhood and would like to make some pocket money for a quick and easy job, please call Michael or Sandra, evenings, at 747-7893.

### **P/T House cleaning needed (Bartlesville)**

Looking for someone to clean my house every two weeks or so. Does getting rid of bathtub residue fill you with a feeling of accomplishment? Do you get satisfaction from a well-vacuumed rug? Does a clean sink give you a feeling of victory? If this is you, let's talk. It would be great if you have your own equipment, but if not, we can get what you need. If you are good at organizing and dealing with clutter, that's a plus. I'm interested in de-cluttering the house, but need some good strong moral support to help me through the process. The house is in Bartlesville; it would be nice if you are, too.

### **Research Participant Opportunity - Menstrual Migraine (Tulsa)**

Do You Suffer From Menstrual Migraines?

Heartland Health Institute, a program of Planned Parenthood of Arkansas and Eastern Oklahoma, Inc., is looking for non-smoking female volunteers, between the ages of 18-34, who have migraine headaches related to their menstrual cycle.

If you:

- Have regular menstrual cycles
- Have experienced migraines just before or during most of your menstrual cycles in the last six months
- Are not currently taking any hormonal contraceptives or are willing to come off of your current hormonal contraceptives

You may be eligible to participate in a clinical research trial to evaluate an investigational drug for the management of menstrual-related migraines. Compensation for your time and travel may be available if you qualify.
