## A few more Korean videos

I noticed that JavForum in the [Other Asian forum](#) has a few other Korean videos including a new scandal involving a Korean singer Solbi.

## The End of New Content

When I started this blog back in August 2007, I expect to have posted every Korean video by early 2008. But I kept finding more and more videos. I'm out of new content finally 2 and half years later finally.

If someone discovers a Korean site that I completely missed, let me know and I'll see what I can do about adding those videos.

Please take these videos and share them more. Make torrents, upload to other sites, and post the links on another board. Even repost my links is appreciated. I won't be doing this again myself.

If you want to reach me, I can be found on some new boards that started after JAVtalk died:

<http://www.javelite.com/>  
<http://www.javforum.net/>  
<http://javbb.com/forum>

As always my id on those boards is turbogek. I was treated badly over at ScanLover (by members not mods) and am not active over there anymore.

In conclusion, I'm relieved this is finally over, but sad at the same time. I appreciate all of your support. Hope to see you soon on those new boards.

### **My Last Kumung Files**

I just want to alert everybody. I've got about another hundred videos to post and then I will have posted every single Korean video I know of. After that, this blog will be done for all practical purposes. Maybe I'll select my favorites but that will be about it. I'd appreciate it if others could spread them to other download services and torrents.

Also, I will not be making any effort to keep the links alive beyond the end. Rapidshare will delete any file that hasn't been downloaded in 2 months. If you repost them somewhere else, they will live longer for everyone.

I'll skip making screens on this one. It's typical Kumung of a model who needs to gain weight and is wearing little clothes.

## Korean Girl On Cheggit

For you Cheggit members, check out: <http://cheggit.net/torrents.php?torrentid=132353>

It's a new video I've never seen before.

And for those of you who are not, it looks like registrations are open right now. However, it is a private torrent site so you have to keep a certain upload/download ratio. It's my favorite general torrent site on the net.

This is a version of Naked News for Korea. It lasted less than a month and ended under rather dubious circumstances. Topless nudity is the most that was done on this site.

### **BojaTV- Real Defloration**

This is a classic clip. This girl supposedly is a virgin and this is her first time. She does end up crying and they have to end the scene. She ends up doing a lot more scenes for the site though. It is up to you if you decide it is real.

## The Huge Amateur Post and JAVtalk

My uploads just started working again. I suspect it was an ISP problem. From here on out, expect few, but large posts like this with limited screenshots. See previous posts from what scenes from this site are like.

Now about JAVtalk. The short version is that it is down. I'm trying to get an official announcement out of the owner as to what's going to happen. It is a holiday season where he lives though. I suspect it is going to be permanent though. Unless JAVtalk comes back, my home board of choice will be ScanLover. There is a discussion thread about the JAVtalk situation there. Note: ScanLover does not allow access from many countries so if you can't get in that's why.

Note: I am unable to upload to rapidshare. If I upload to any web site (even limiting my bandwidth), my Internet connection is completely unusable. That just started happening recently. Until I get that solved or I find an upload site that allows FTP (pm me on javtalk if you know one), I can't upload anything.

**Live1004TV - 7 GB of Movies**

This is every single file I have been able to find from this site that was around last year. It may be close to a full-site rip.

All the videos are pretty similar. I only gave you screens from one. The rest are pretty much the same including the masks. There is BMAF (Black Male on Korean Female) in several of the files with early May 2008 dates.

The 0313 may be completely corrupted. Probably shouldn't bother to download unless you know how to repair. 0315 has some minor corruption but it is still playable.

## **Live69 - Two Clips**

Sorry for the lack of screens. I'm just trying to get all the files I uploaded like 2 months ago posted finally. Here are the final two. These are two old clips. The highway one is badly filmed sex in the car. Pink Stocking is a studio production. Both have so-so film quality.

http://rapidshare.com/files/250123164/live69-pink\_stocking.asf

Next up is what I think is a fairly complete 7GB siterip of a little known defunct site. I'm sure 99% of you have never seen these videos. Pretty decent quality hardcore.

## **Live10TV PJ Clips**

Three clips of girls talking in front of the camera. Vibe action is the most that happens.

This clip is strange. It has the AmaFetish logo all over it, but doesn't fit the usual fetish site videos. This girl is chubby and not model thin. Also, there seems to be some real sex going on.

### **File That May Be Deleted Soon**

Rapidshare has changed policies about file deletion and anything not downloaded in the past 90 days will be deleted from my account. This starts in about 3 weeks. I created a Rapidshare folder of all files that will be deleted if they are not downloaded again. Though the bulk of the files are Korean - some are not. Almost all the rest are of Asian woman. If you are looking for screens on any file, try the search box on my blog with the filename. Note: many of the files are from my other two blogs. Also, there are a handful of files that I uploaded and have never posted. They will have official blog posts in the near future.

The folder is:

<http://rapidshare.com/users/JNU49>

If nobody downloads them, they are gone and will not be reposted.

### **CoolKMan Clips**

Sexy Sona was a mature Korean-American amateur who had an Internet site a few years ago. This download is 300MB of pictures. No video. I don't even remember if there was any video to begin with - I just know I don't have any.

## **The 9GB Corrupted File Post**

This is a post that is only for the true collector or someone who has a rapidshare premium account with download GB to spare.

I know this post is a unorganized pile of crap, but my choice was to either post them like this or delete them. If you have any doubts about whether you want to go to the trouble of downloading, I'd recommend not bothering or just download one part and see if you want to continue. The good news is that I still have 60-70 GBs of quality KAV to post after this.

These are 9GB worth of files that are corrupted in some way. Some may be incomplete. Others just won't seek correctly. I used to try to fix them but I couldn't fix many and it was too time consuming. As far as I know, all of them will play if you start at the beginning and watch to the end.

The other disclaimers are:

There is no part 9. I skipped a number by mistake. There are no screens as the screenshot software doesn't work on these files. You just have to grab a RAR file and take whatever is in it. Most of them have 2 to 5 files in them and I left the original Korean filenames which are often wrong. Corrupted1.rar has a bunch of small files. The ones with "part" in the filename are a single big file. Some of these may duplicate files already posted. I did attempt to remove duplicates but may have missed some. Almost all of the rar files are between 150-200MB in size.

## **Live1004TV - 2008-02-24 & 2008-04-16**

This is a site you probably haven't seen before. Due to their format I can't get screenshots of any of them. It is hardcore similar to what you see from C2Joy, Ama10, etc but higher quality.

If you can not play a FLV file, there are numerous ways to do it. Just google "flv player" and you'll find something that works.

## **Melinda**

Sorry again for the lack of posts. It's probably going to be more typical that I do a whole bunch at once and then not do any for a while like I have been for the past few months.

Today, I've giving you a torrent of a hot Korean-American girl that I just found by accident. There is a rather horrible backstory associated with this whole thing that is mentioned on the following link. I've verified it (except for the part of her murdering her own child - there is no solid proof either way). The girl looks identical and there were news stories about her doing amateur porn. Either way, I won't pass judgment if you take a pass on this one or if you download and wack off.

I am not going to upload it to RS, but at the same time, thought I'd pass it along.

Story, screens and torrent:

[http://deadfrog.fapis.com/entry.html?id=13464&post\\_comment=1](http://deadfrog.fapis.com/entry.html?id=13464&post_comment=1)

PS Someone emailed me and said comment posting was not working. I got on the sensualwriter support forum and the problem was for all blogs. They said they were working on it yesterday so maybe it is fixed.

## **Favor**

No need for anyone else to reply. A few people told me that I need a password for that file which I don't have so it is probably hopeless. Don't worry about it. Thanks to the guy who pointed me at some Hoppy Kamiyama material I didn't know about though.

-----

There is a Japanese album I want. I can't even find it for purchase anywhere (a couple of sites list it but don't actually have it in stock) or I wouldn't be asking. The ONLY place I've found a copy is on Korean file sharing sites which I've never understood how to use but I thought someone here would know how to use it. The file is [ex-girl - the legend of the waterbreakers.zip](#) . The links are:

<http://filedic.com/download/290186>

or

<http://rankbox.co.kr/download/290186>

If someone could get ahold of it and make it available to download somewhere (rapidshare, torrent, megaupload, mediafire, etc), I would appreciate it. You can reply in the comments here, PM me at JAVtalk, or email me at t-u-r-b-o-g-e-k AT y-a-h-o-o.c-o-m (remove the dashes).

### **MomoFetish - Behind the Scenes**

I wish this was more like typical Behind the Scenes porn type videos where you learn something about the production. In this case, music is playing the background and you get to see things like the girl get her makeup done, etc. However, it does appear that MomoFetish has real offices and sets. Unlike some of the hardcore sites that are shot in someone's house (e.g. Live1040) or in hotel room (e.g. Ama10).

## **FetishKorea - 86 Blindfold**

I just did a count and I believe this is the 1034th Korean video post. Then I did a file count in my pending folder and got over 1000 files to go. So I'm only halfway??? When I started this blog, I thought in 6 to 12 months I would have posted everything.

This clip is an unusual one. I know we have seen a lot of hardcore videos with censored/masked faces because people didn't want to get arrested by the Korean police, but this is the first time I remember face hiding on one of the legal fake hardcore films.

### **FetishKorea - Washing Machine**

I'm sorry for the no posts for a long time and now a flood. I thought it best to post as much as I can while I can just in case I get busy again and can't for a while. Virtually every Korean file I've posted over the past year and a half is still available so I think they will be around for a while.

Currently, I have about 94GB of unposted material.

## **Kumung 1-9**

This video overlaps some of my other Kumung posts. I know I've posted some of the scenes including in this video before, but there are other scenes I think haven't been posted.

FYI: if you are wondering why the sudden increase in posts, I've had some time and Rapidshare released a much better upload tool than in the past - it doesn't crash sometimes for example. Also, I'm in bad need of freeing some disk space and no money to buy more.

## **Korean Eros Volume 9**

I hate posting a 900MB file and then be unable to give you screenshots, but I can't get this video to take a screenshot. The best I can do is describe. It's a typical Korean Eros/Ama10 style film - decent film quality, bad lighting. The girl (not Little Kim) is better looking than most. If you like Ama10's work, you'll like this. If not, skip it.

### **SelfKorea - 11**

I keep thinking that I'm never going to find any more new Korean porn. Then today I run across another 8-9 GB on a site I never heard of without even searching. (<http://empornium.us/details.php?id=303797> and also search for "live1004tv" on emule.) I will eventually post this new content but am probably going to put it on a low priority as it is easily accessible right now.

In the meantime, today's post:

### **MasterLive - Weird Circle**
